# School's Out!

With Minds in Motion of N.J.

## **EM 4 ROBOT WORKSHOP**

Build and take home your very own EM4 Robot! Bring your EM4 Educational Motorized Robot Kit to life in one of its four exciting modes: Cricket-who's a joy on 6 legs, Beast-the master of bipedal movement, Trailer-the little engine that could move forward thanks to its motorized transmission, and good ole Grandpabot-everyone's favorite bobble-headed gear-driven family member. Each mode is equipped with its own unique form of movement and, with a few easy steps, transforming between each mode is a breeze! Students will also form teams and work together to see who can build the fastest and strongest robot! Each team will be given a robotic kit containing motors, wheels, engines and a remote. Using hundreds of robot parts come hone your robotic skills and use your imagination to free-build your own robot and compete in our 'Minds in Motion' robot battles!

**Each child must bring a lunch, snack and drink each day.**
