

Dear Resident,

We are excited to announce that we will be launching our newly redesigned Marlboro Township website at www.marlboro-nj.gov this weekend.

In keeping with our goal of consistently working to improve customer service and government transparency our website has a brand new look and a mobile device friendly design.

Some notable updates include:

- The website will be mobile device friendly making answers on the move a snap.
- Find it fast! Use the new 'I need to...' drop-down box for a list of resident most FAQs.
- Register for emails right on the home page in one quick step.
- Emergency? Storm? Something everyone needs to know? Alert messages will scroll across the top of the home page.
- A redesigned quick-links section to take you to the most used features.
- The search box is designed with new functionality and is on every page so you can find it in a hurry!

Please note that the website may be unavailable for a short period of time during the transition. We are always working to improve our communication with residents and hope you will find our new website user-friendly and easy to navigate.

Mayor Jon Hornik
